Quality Policy

Strathroy Scale is committed to providing reliable weighing device sales and service in support of the farming, industrial and transportation sectors in Southwestern Ontario.

We will achieve this by

- Sourcing and delivering best practice weighing device equipment and service.
- Reviewing the strategic positioning of the organization to achieve sustainability.
- Developing and sustaining an effective, skilled and motivated workforce.
- Providing the necessary infrastructure to support our service delivery and management.
- Ensuring preventive maintenance of all equipment owned by Strathroy Scale.
- Building and maintaining positive and effective relationships with our customers, suppliers, and regulators.
- Meeting the requirements of our ISO 9001:2015 Certification and working to continually improve effectiveness of our Quality Management System.

The Owner/ Manager of Strathroy Scale will demonstrate leadership and support for the Policy. We will all work together to ensure achievement of our stated objectives. We will regularly review our Policy and Objectives in consultation with employees and other key stakeholders.

Owner / Manager, Garry Burke
